ASIST TRAINING

APPLIED SUICIDE INTERVENTION SKILLS TRAINING

ASIST

ASIST is a two-day interactive workshop in suicide first-aid. Participants learn to recognize when people have thoughts of suicide and how to keep them safe.

ASIST shares an intervention process that significantly reduces thoughts of suicide and helps people at risk of suicide feel more hopeful about living.

ASIST is the world's leading suicide intervention workshop. It has trained over 2,000,000 participants across 35 countries on how to equip people with skills that support life.

ASIST helps participants become more willing, ready, and able to intervene with someone at risk of suicide.

ASIST allows people to foster hope, resiliency, and life in any organization, group, or community.

Learning how to use this model can empower you to explore invitations to talk, ask about thoughts of suicide, and intervene with the person at risk by connecting him or her to a network of community resources.

Support life in any setting.

Register for the summer workshop today!

Provided by the Shawnee County Suicide Prevention Coalition.

Thank you for making these events available in our community!
